Using WE Video to Create Voiceovers on You Tube.

Step 1: If you do not have a WE Video account, create one using your Nicolet Google account. If you already have an account, you may log in.

Step 2: Create a new video by clicking on the + symbol in the “Create New” box.

Step 3: Choose a new project.

Step 3: Name your new project and provide a short description.
You do not have to add media yet, you can do this later.

Step 4: You are ready to create your video

Select the text box

Pull the Text box down to the Video line to create your title box. You may now double click on the text box to edit the title of your video. By pulling the blue box with the scissors left or right you can adjust the length of time the title will play. This is also where you add the ending credits to your film.
Step 5: You are now ready to record your video. Go to You Tube to find an animal video. Have the video ready to play on a separate tab in Chrome.
Return to WE Video and click on the red circle.

Choose to record screen.

Now choose to record the entire screen.

You do not need to record audio. This can be turned off.
Another screen will ask you to share the contents of your entire screen, click share.

Now click on the Chrome tab with your YouTube video. Expand the YouTube video to full screen and play the video.

Click on “Stop Sharing” when the segment you are recording is finished playing.

Close this box when your video is finished uploading.
Choose “Save in the lower right hand corner of the screen.

The video segment will now be under “My Media.”

Step 6:
Pull the video clip onto the video 1 line next to your title.

You may now trim the video by locating the blue line at the point of the segment where you would like to begin. Click on the scissors. Highlight the segment to be cut and click on the delete key.
Step 7: Now you are ready to record your voiceover. Highlight your video clip and click on the small microphone above the Video 2 line.

Choose to preview while recording. You may also want to mute the audio. Now click on the red microphone to record your voice. Click the red square to stop the recording.

Your voiceover will appear below your video. If you don't like the way it sounds, don't worry, you can highlight the voiceover, delete it and try again.
Step 7: Finalizing your video. Select “Finish” on the top toolbar.

Now title your video.

You may now choose a thumbnail for your video project and save to your Google Drive. Once the video is in your drive you may share with your teacher.

The video will now be shared to your Drive in a WE Video folder. You may also opt to download or send a link to allow someone to view.
